Our goal again this year was to unite our sites through art. We accomplished this by establishing a virtual art studio and rotating our specialists between locations so that all students benefit from their expertise. This collaborative approach led to many exciting initiatives, including all-site projects, site-based projects, collaborative projects and, of course, the Mystery Art Box Challenge.

## All-Site Projects

Monthly projects that focused on a variety of art forms and techniques.

Mask Design Contest  
Giselle, 8th Grade  
Webster MS

Zines Publications at  
Emerson Community  
Charter School

Each site created art based on the art instructor's professional skills and the students eagerness to learn new techniques.

## Site-Based Projects

## Collaborative Projects

Each TPT location created a portion of a project which were then combined together and displayed at our Fall, Winter and Spring Showcases.

Parachute For The  
Planet Project

February Mystery  
Art Box Challenge  
Winner: City School  
Theme: Robots

The MABC is the monthly, inter-site competition that inspired more students to participate in the Art Academy than ever before. Each school receives one box of identical, mystery art supplies, one theme and one hour to create a masterpiece. The students must incorporate all items from the box. The popularity of the challenge led to the "LIVE" events, where "art teams" gathered at a TPT location or via Google Hangout to compete. This school year we had four live challenges and one all virtual challenge.
