Thank you for your making the 2018-19 school year such a successful one for the 1,600 elementary and middle school students at our eight ASP locations.

This yearbook highlights our comprehensive after school program, but not the Prime Time Games® Full Inclusion Sports League. For more on that program, please visit www.teamprimetime.org.

TEAM PRIME TIME
PRESENTS THE

The Carol Price Tennis Tournament introduces students to competitive tennis - a passion they can pursue in high school - as they continue to find ways to create a positive future for themselves.

Our third year at USC!
15 schools competed for the Soccer City Championship at USC. Thank you to USC Marshall Business School and USC Athletics for hosting the event. Congrats to the winning team, Los Angeles HS!

Prime Time Games

CHAMPIONSHIP SUNDAY 2019 ★ UCLA

PRESENTED BY

For the 9th consecutive year, the Spring Season of the Prime Time Games[®] culminated in CHAMPIONSHIP SUNDAY at UCLA. A record 20 MS and HS participated in the City Championship Basketball Tournament.

Congrats to the 2019 Champions: Palms MS and Fairfax HS.

Academic Support and Enrichment

art
ACADEMY

NEXT
U
PARTNERS

PRIME TIME
STEM

Through the TPT Art Academy, Next U Programs, and Clubs, Team Prime Time provides opportunities for students to develop new skills, learn about future careers, and enrich their school day.

HOMEWORK / ACADEMIC SUPPORT

Team Prime Time's primary goal is to increase high school graduation rates for under served youth.

TPT students are over 50 percent more likely to graduate high school than at-risk middle school students in LAUSD who did not attend TPT while in middle school.

PRIME TIME CLUBS

No two students are the same, and no TPT locations are the same, either. That's why offering clubs driven by student interest and local partnerships are so important.

CUSTOMIZATION CLUB

Students personalized their own projects, from aprons to reusable water bottles. They also focused on squishy art projects!

PODCAST CLUB

Studio School students created podcast shows about holidays and popular topics around school.

DANCE CLUB WITH LMU

LMU Dance majors inspire our students at Westside Global Awareness Magnet.

NEXT U PARTNERS

LOYOLA
LAW SCHOOL | LOS ANGELES

USC Marshall
School of Business

TPT's Next U Partners introduce the students to potential careers by overseeing project-based learning opportunities that give the students a sense of what it's like in the "real world". These programs inspire the students to excel in the classroom because they, too, might want to become a Lawyer or Stock Broker, and have a better sense of the commitment it takes to reach those goals.

MARSHALL MENTORS

TPT students at Webster MS completed their third year of the “Webster MBA Program” aka “Marshall Mentors” , and are on the verge of taking over corporate America! This year was The Studio School’s first year participating! Thanks to the many USC Marshall Business School students who volunteer every week to help our kids make big plans for their futures.

USC Marshall
School of Business

PROJECT TUESDAY - Thanks to Eleni and friends, we learned about the vast array of careers one can pursue with an MBA. TPT would like to congratulate all the teams that participated in the annual “SHARK TANK” challenge!

Palms Middle School vs Emerson Middle School

**Order in the Court!!
The verdict is in...
this program is amazing!**

For the third consecutive year, Palms Middle School was awarded a victory in the 2018 Prime Time Trials competition, held at Loyola Law School on Tuesday, November 6. The Joker prevailed in the trial of the century: Joker vs Batman!

Thank you to the Presiding Judge, the Honorable Suzanne H. Segal, as well as to Loyola Law School and various local Law Firms and Attorneys.

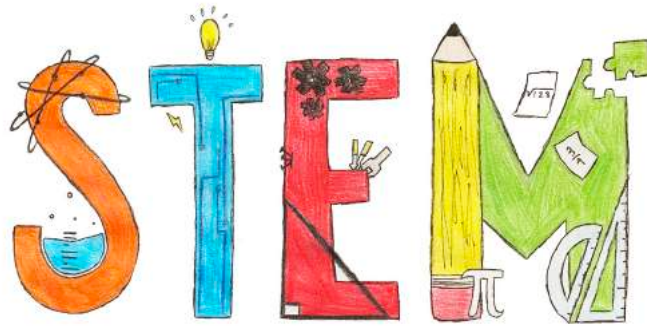

**Congratulations to
Greene Broillet & Wheeler, LLP
for winning the
MPB Award
(Most Pro Bono Award)**

LAW SCHOOL | LOS ANGELES

PRIME TIME

SCIENCE • TECHNOLOGY • ENGINEERING • MATHEMATICS

Prime Time STEM is an interdisciplinary and applied approach to educate students in four specific disciplines - Science, Technology, Engineering and Mathematics. Rather than teach the four disciplines as separate and discrete subjects, STEM integrates them into a cohesive learning paradigm based on real-world applications.

MONTHLY CHALLENGES

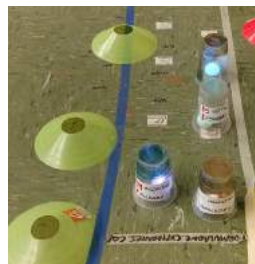

CATAPULTS!

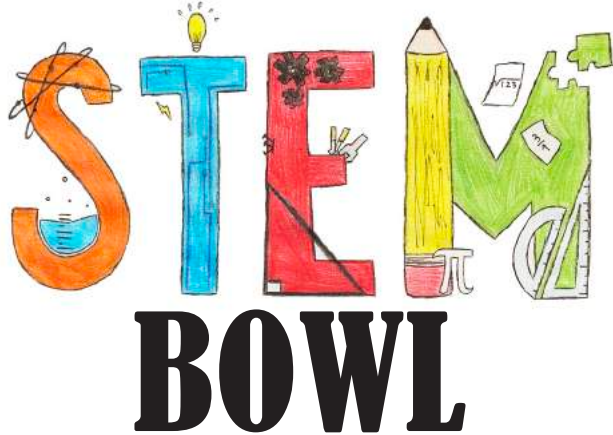

PAPER AIRPLANES!

SPHERO RACE DAY FRIDAYS

Lead by 8th grader, Matthew, students raced every Friday on a Formula 1 inspired track. They raced Sphero robots.

PRIME TIME

Featuring 3 Events:

Sphero Racing

Matthew- Race Director

STEM BOWL WINNING TEAM... EMERSON COMMUNITY CHARTER SCHOOL

This was TPT's first STEM Bowl!
Students won points in every event. At the end, the school with the most points won. There were event winners as well. Congrats to the Event Winners:
Sphero Race Track Winner- Johnny (EMS)
Sphero Coding Track Winner- Robin (EMS)
Catapult Winner- Alex (MDR MS).

art ACADEMY

Our goal this year was to unite our sites through art. We accomplished this by establishing a virtual art studio and by rotating our specialists between locations to provide the benefits of their expertise to all students. This collaborative approach led to many exciting initiatives, including monthly all-site projects, collaborative projects, site-based projects and, of course, the Mystery Art Box Challenge.

All-Site Projects

Monthly projects that focused on a variety of art forms and techniques.

Mask Design Contest
Giselle, 8th Grade
Webster MS

Zines Publications at
Emerson Community
Charter School

Each site created art based on the art instructor's professional skills and the students' eagerness.

Site-Based Projects

Collaborative Projects

Each TPT location created a different portion of the same project, which was assembled and displayed at our Fall, Winter and Spring Showcases.

Parachute For The
Planet Project

February Mystery
Art Box Challenge
Winner: City School
Theme: Robots

The MABC is the monthly, inter-site competition that inspired more students to participate in the Art Academy than ever before. Each school receives one box of identical, mystery art supplies, one theme and one hour to create a masterpiece. The students must incorporate all items from the box. The popularity of the challenge led to the "LIVE" events, where "art teams" gathered at a TPT location or via Google Hangout to compete. This school year we had four live challenges and one all virtual challenge.

Media Arts Fall 2018 Winning Photo By Josie, Emerson Community Charter Middle

Select Photos Include: False Perspective, Collage, Special FX, Camouflage Art, Black and White and Animal Cut Outs

VISUAL ARTS

The Visual Arts / Art Academy is an essential part of TPT's After School Program because it attracts students who are not interested in participating in the strong sports components.

GRAPHIC DESIGN

ZINE PRODUCTION

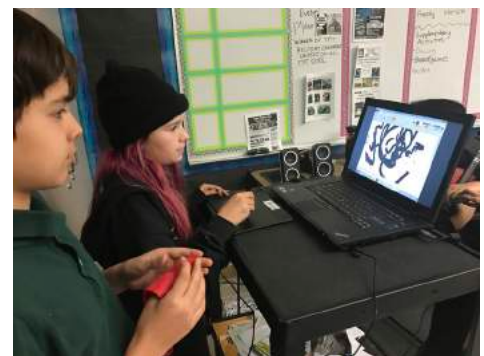

A zine is a small-circulation self-published work of original or appropriated texts and images, usually reproduced via photocopier. The students created a zine based on their favorite things. They made coloring books from photographs and activity books with mazes, crossword puzzles and more based around their zine's topic. Popular Zine Topics Included: Shoes, School Locations, Animals and Food.

DIGITAL ART & 3D PRINTING

Using TinkerCad, students learn the basics of the XYZ axis, how to model and create three dimensional objects, and learn how to use computer shortcuts.

MONTHLY ALL-SITE ART PROJECTS

Art has been popular this school year with our monthly all-site art projects. Each school submits a site winner and the grand prize winner is selected by all the schools. This process allows the program to celebrate each school's talented artists.

POPSICLE STICK SCULPTURE CONTEST

Slice of Fun!

Media Arts

Animations and More

Media Arts students have been collaborating on numerous animated shorts. It was a great way for the students to learn new skills, and work as a team to recreate the magic of our local industry. They studied pixelization and other forms of stopmotion animation.

Students designed their own fonts by drawing out each letter and using an online program to scan and build a functioning font in any text document.

"Super Reverse Man" By Orsen, 8th Grade, Emerson Community Charter School. Super Reverse Man battles Dr. Bunny in this super hero classic film.

Matthew, 8th grade, Emerson Community Charter School completed his 25 minute stopmotion film "Apollo 13." He started the project in 7th grade. He recorded voice over and sound effects this year.

MYSTERY ART BOX Challenge

SCHOOL TEAMS GET 1 HOUR TO TURN A BOX OF MYSTERY ART SUPPLIES INTO 1 MASTERPIECE

Team Prime Time's Mystery Art Box Challenge started in the fall of 2017. It's a monthly, inter-site competition that includes all eight Team Prime Time after school programs. Each school receives one box of identical, mystery art supplies, one theme and one hour to create a masterpiece. The students must incorporate all items from the box. We also did a LIVE EDITION Mystery Art Box Challenge where we brought schools together to compete against each other in a live event. This school year there were 4 live events and 1 all virtual event using Google Hangout.

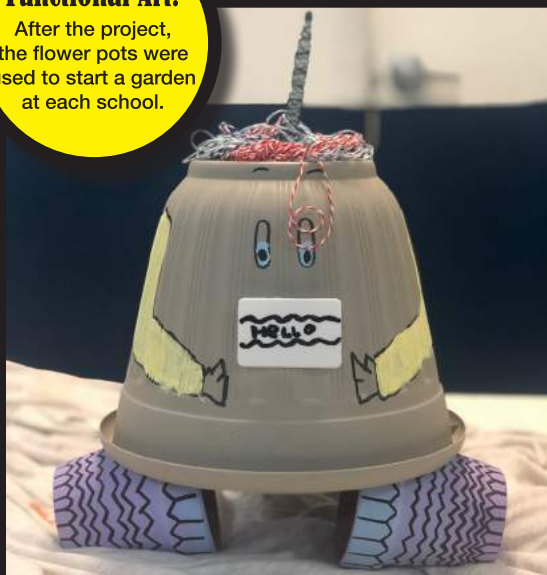

"A Night Out" By WGAM
Theme: Newspaper Fashion

Teams created a life size outfit with one accessory using only newspaper.

Functional Art!

After the project, the flower pots were used to start a garden at each school.

"H.A.L.- Helpful And Loving" By City School

FEBRUARY CHALLENGE THEME: ROBOTS

Functional Art!

After the project, the decorated bins were used at the sites as a garbage can or equipment organizer.

"Bikini Bottom" By Marina Del Rey Middle School

LIVE EDITION CHALLENGE THEME: CARTOONS

URBAN ART PROJECT

The Urban Art Project is just the latest way that students at Marina Del Rey MS are expressing their creativity. With guidance from TPT Art Specialist, Nancy, and a group of Los Angeles street artists, our students are having a truly 'hands-on' experience expanding their artistic horizons. The Project has been so popular, and the art so impressive, that the students were given a wall on campus to decorate last year.

This year, students designed functional pieces including skateboards.

PARACHUTES FOR THE PLANET

Parachutes for the Planet is collecting art banners for a massive international exhibit to inspire action to protect the world. The target for the initial parachute landing is Washington, DC in conjunction with the second global, youth-led climate march. This is our second year participating.

Our 2018 Parachute has been on display at 2 events:

September 8, 2018- People Climate Movement-
San Francisco City Hall
Climate March ahead of the Global Climate Action Summit-
San Francisco, CA

October 13, 2018- Mother Earth Project's Parachutes For
The Planet™
World Inaugural Exhibition Georgetown
Waterfront Park- Washington, DC
