

Cotton Mask Pattern

For this pattern, print on an 8.5 x 11" computer paper and cut along the dotted line.

If you can't print out the document, measurements are given below to show you how to draw out your pattern around a 5 5/8 x 5" rectangle.

Cut 2 pieces per each layer of the mask, Ideally 4 layers total:
3 cotton layers and 1 interfacing layer **OR** 4 cotton layers if interfacing is not available.

You will also need 2 elastic strips that are 6" to make earloops.

Check out our Mask Tutorial on the Team Prime Time Youtube for further clarification.
